Being the best we can be

13th November 2020

Our second week and a week we would not have predicted or planned for!

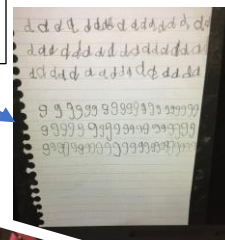

I would like to reassure you that even though we have children working from home at the moment, we have only had one confirmed case of COVID-19 in school since September. We remain very vigilant to ensure that we can minimise any spread within the school. This means that our hygiene regime is very securely still in place, with children scheduled to wash hands throughout the day. Our cleaning staff are also doing a great job of disinfecting the school building every day.

It has been incredibly strange to oversee the school from afar. I would like to thank all of the children and staff for continuing to work so very hard. It has been wonderful to see such amazing learning and everyone being the best that they can be. Thank you too to parents who have had to assume the role of teacher once again and follow the remote learning plans. You have managed to sort out a timetable and encourage your children to complete their daily tasks. Just take a look at some of the amazing learning:

and lots, lots more!

Children in school have also been working so hard. Take a look at our reasons to celebrate on page 2.

No matter where we have been, we have also honoured Remembrance Day. I hope you have enjoyed seeing the display of poppies, both in the playground and those made by children in their home.

If you have children who will either be starting school in Reception in September next year, or transferring into year 3, please do remember that you need to apply for their school place. It is quite easy to forget as begin Christmas preparations. Please see details of open events on page 3.

I look forward to seeing everyone again next week. Have a lovely weekend and stay safe.

Please remember your face mask on the first day back & only one adult with each child

The reason for face coverings:

Coronavirus spreads by droplets from coughs, sneezes and speaking. The best available scientific evidence is that, when used correctly, wearing a face covering reduces the spread of coronavirus droplets - helping to protect others.

The reason for one adult:

Ensures that we are able to socially distance.
